

# New Fraud Prevention Service

---

Our Fraud Center has a new number: 800-417-4592.

If the Fraud Center detects questionable activity on your debit card, they will attempt to contact you with **automated phone messages** and/or **text messages** to verify the transactions.

Please respond to messages from the above number as soon as possible to avoid potential fraud losses to your account.

Please make sure we have your correct contact information, and remember, we will **never** ask for your PIN or account number.

Just one more way Flint Community Bank helps protect you.

## It's How You'd Rather Bank!
